A: This actually has absolutely nothing to do with .NET. The problem is that your version of Unity (as is the case with most software) is probably out of date; Unity has updates that are meant to be installed by version control. You'll need to go to and add this to your Software Update -> Add-Ons -> Other -> " find updates for unity. You might need to download it, or your public FTP might have it already - you'll have to check the file you download. Once you do this, you can install the Unity Dashboard using the installer again, and this time it will actually work. Good luck!

A: While there are other solutions, I highly recommend you to use 7-Zip. 7-Zip is a free, open-source, lossless, and universal file archiver, file manager, and resource editor. It is available for almost all platforms (Windows, Linux, Android, and more). It allows you to easily extract everything you need from the ISO to the games, with no need to worry about the files being in the same directory.

handelssvikt, er den norske eksporten til Tyskland opptatt igjen. Eksporten fikk en ny prekedens da 1. april havnet det på en ny nedgang på 18,2 prosent, ifølge Markedsaktørens lister. – Dette er det beste resultatet i hele året. Mange er likevel redd for å gå på trygghetstjenestene og gir oss ekstreme risikoer, sier Handelsundersøkelsen-forsker Dag Skansen, til NRK. – Men dette er den beste statistikken til nå. Noen sendte kjøpstoppet allerede på nyåret, ellers var det et stort rom for optimisme på køene i fjor. – Det er tross alt selve poenget med at vi forventer, ifølge en undersøkelse, at vi sender mer penger ut på veien hvis det blir større økonomisk nedgang. Dette er en bærekraftig tilstand, sier Dag Skansen. Store flyttinger Nå er det mer vanskelig å se at det er mer økonomisk utrygghet. –
