User reviews about NoVirusThanks Driver Radar Pro "I'm using this tool for quite a long time now and I can say without exaggeration, that it's a very useful application. It's quickly, safe and working properly. More than that, the application is really to the point! You can easily identify if the driver is all right and if it's suspicious. You may not have to stress yourself and go into the registry as the program locates it and extracts all the key value information. Thanks for everything!" "This application is easy to use, works quickly, and works well. After examining all the information you can disable the driver you don't need, or enable only when you need. All in all, a good and reliable tool." "This application is very useful! It has helped me a lot. When I started using it for the first time, I had a lot of problems with my drivers. After seeing all the information and disabling the ones I don't want, I was able to start my computer without any problems. Thanks for making such a great tool!" "This application is excellent! It works well and doesn't have any problems. I've
